

### **CODING SUPPORT SERVICES - \$4-\$18 per chart**

We offer coding support services, including outsource coding to assist companies with permanent coding solutions or to assist companies with temporary or periodic coding assistance. We are available to help support your special needs, such as coverage for vacations, temporary fill-in while hiring, or any situation in which you may need some additional coding help or need to outsource your coding all together. We specialize in physician and hospital coding for multiple specialties, such as, radiology, cardiology, anesthesiology, evaluation and management, emergency department, durable medical equipment (DME), therapy and laboratory/pathology. We provide continuous feedback and communication with the provider to improve processes and ensure compliant coding.

Since coding drives reimbursement, it is no surprise that it is a top focus area for auditors. Our skill set will help ensure you receive accurate, optimal, yet compliant reimbursement.

### **ENFORCEMENT AGENCY PREPAREDNESS - \$1,840**

- Initial documentation and coding probe review of 30 records
- Audit results and feedback
- Billing utilization analysis
- Recommendations

Based on this initial packaged review, we are also available to provide customized education and training at our standard hourly rate.

We have assembled a team of experts that includes physicians, certified coders, CPAs and a statistician. We are prepared to assist with all aspects related to current enforcement activity from contractors (RACs, MICs, ZPICs and others), including risk assessments, education and training, evaluation of extrapolated overpayments and preparation of appeals. We have also developed a RAC resource center that is available on our website [www.hchealthcareconsultingllc.com](http://www.hchealthcareconsultingllc.com) to provide you with comprehensive RAC information.

### **ICD-10 SUPPORT SERVICES - \$ 2,080**

- Superbill review and revision
- Documentation and coding training
- Implementation checklist

ICD-10 will be here before we know it. The transition is October 1, 2013 and providers can not afford to delay in addressing the many issues that surround this updated coding system implementation. We are available to assist with mapping existing codes to the new code set, assist with documentation issues that impact the transition to ICD-10, and training and education for coders and providers in your practice.
